

ANIMAL ARITHMETIC

The Israelites brought many **lambs, goats, rams** and **doves** to sacrifice at the tabernacle. In this grid, **each type of animal** has **its own secret number**. When the numbers going across each row are added together, they equal the totals at the side. When the numbers going down each column are added together, they equal the totals at the bottom. The **number** for the **doves** has been given to you. **(HINT: Start with the lamb column first.)**

Bible Truth

God provided atonement for sins by the death of animals that stood in the place of the sinner until the promised Savior came. (Leviticus 4-6:7; 17:11; Exodus 29:38-39; Romans 6:23; Hebrews 10:4)

Lesson Focus

To learn that in the Old Testament, God required animal sacrifices to atone for sins; to recognize that all people are guilty before God and need a Savior to pay for their sins; to trust in Jesus as Savior, thanking God for forgiving us and making us right with him.

THE PERFECT SACRIFICE

Jesus Christ sacrificed himself to atone for the sins of his people. Use the words in the **word bank** to complete the acrostic. Each word tells something about Jesus and what he did for us.
